

## Costs and Limitations of Certified Health IT

Capability	Description of Capability	Costs or Fees <i>Types of costs or fees that a user may be required to pay to purchase, license, implement, maintain, upgrade, use, or otherwise enable and support the use of the implementation or use of the capability - OR- in connection with the data generated in the course using the capability</i>	Contractual Limitations <i>Limitations of a contractual nature (including developer policies and other business practices) that a user may encounter in the implementation or use of the capability -OR- in the connection with the data generated in the course of using the capability</i>	Technical or Practical Limitations <i>Limitations of a technical or practical nature that a user may encounter that could prevent or impair the successful implementation, configuration, maintenance, support or use of the capability -OR- prevent or limit the use, exchange or portability of any data generated in the course of using the capability</i>
170.315 (c)(1,2,3)  Clinical Quality Measures – Capture and Export, Import and Calculate, and Report	These capabilities enable users to import/record the data required for each of the certified clinical quality measures (CQMs), using codified entries for required CQM data criteria, and export a QRDA-1 patient data file. Additionally, this supports the ability to import QRDA-1 files and calculate each certified CQM (regardless of import format) and produce aggregate reports, aggregate QRDA-III documents, and de-duplicated QRDA-1 documents.	The application will be provided at no additional charge to providers that have an annual QualityMeasuresReporter® subscription. This technology requires a feed of clinical data exported from a certified EHR to perform the C1, C2, C3 capabilities. To meet the base requirements for PI, this certified technology <i>must work in concert</i> with clinical data harvested from a certified EHR either directly or indirectly.	The application will be provided to users that have an annual QualityMeasuresReporter® subscription.	The file extract must be in one of our acceptable formats to process and a single .zip file is limited to 250 MB during upload.
170.315 (d)(1)  Privacy and Security – Authentication, Access Control, and Authorization	This feature will support the creation of new users and the provisioning of existing users via a unique identifier in Premier’s portal with access to the eCQM Calculator app. Included is the ability to control access and the rights granted to specific users.	No associated costs or fees	No contractual limitations	No technical or practical limitations.
170.315 (d)(2)  Privacy and Security – Auditable Events	This feature enables event creation of auditable events and will prohibit the ability of users to tamper with the documentation of these events.	No associated costs or fees	No contractual limitations	Audit logging cannot be disabled and audit records cannot be modified or altered by users or IT developers.

and Tamper Resistance				
170.315 (d)(3) Privacy and Security – Audit Reports	This function supports the creation of audit reports based on time frame.	No associated costs or fees	No contractual limitations	Disabling the logging of any auditable events, the encryption status, or audit log status is not permitted. The audit report is sortable on the data elements and append only. Audit reports will be generated for the specified time frame and delivered through secure file transfer to the user who submitted the request.
170.315 (d)(5) Privacy and Security – Auto Log Off	This feature will ensure that idle users are automatically logged out of the system.	No associated costs or fees	No contractual limitations	The system has a default access time out. The time-out cannot be adjusted by the users and requires user authentication to resume access that was de-authorized via time out.
170.315 (g)(4) Design and Performance – Quality Management System	This function supports all controls and means to which the quality standards are met for reporting.	No associated costs or fees	No contractual limitations	No technical limitations
170.315 (g)(5) Design and Performance – Accessibility centered design	Accessibility-centered design was not applied to any applicable capabilities.	No associated costs or fees	No contractual limitations	No technical limitations
